

Slope's Up!

Seven reasons to ski at newly renovated Wilmot Mountain:

- 1 NEW TERRAIN PARKS.** With a new high-speed rope tow, freestyle skiers and snowboarders can spend more time on the slopes and let the snow fly! Green, blue and black runs—all lit for nighttime skiing—are groomed every night.
- 2 INSTRUCTION.** An expanded ski and snowboard school offers rental equipment for all ages and abilities. Instructors are certified by PSIA (Professional Ski Instructors of America), meaning they have the highest standards and quality teaching skills.
- 3 BETTER SNOW QUALITY.** State-of-the-art snowmaking guns shoot water into the air to make man-made snow more powdery, not icy.
- 4 MAIN LODGE.** The renovation shows off a pitched, pine-beam ceiling, giving the building a ski lodge feeling. The food court

includes stations for made-from-scratch pizzas, street tacos, Chicago-style hot dogs and more.

- 5 WALT'S TAVERN.** This dining space offers an upscale food bar and tasty beverages. A large wall of windows allows parents to watch their tykes zip down beginner slopes.
- 6 APRES-SKI CHOICES.** After you're finished on the slopes, share a platter of iconic Wisconsin foods, such as German pretzels, brats and award-winning cheeses.
- 7 RFID CARDS.** Before arriving, buy a radio-frequency identification card from Wilmot's website. Load the card with your lift ticket, season pass and rental equipment to cut down wait time, giving you more runs on the slopes. wilmotmountain.com
